Why Use CharterSync?

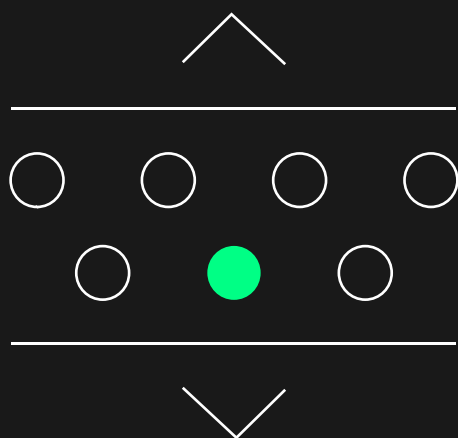

Dedicated account management.

Our dedicated charter account managers are experts in their field and are ready to help you whenever you need us.

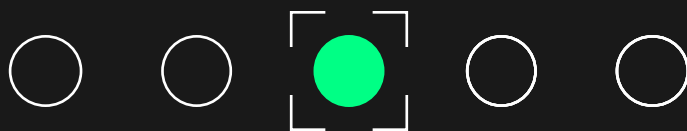

Compare air cargo rates in one place.

All of your charter quotes are easily visible on your dashboard, allowing for easy comparison between solutions.

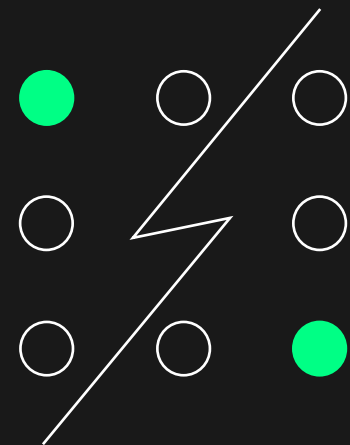

Find suitable cargo aircraft.

We have solid global relationships and access to the full range of aircraft equipped to service requests to remote locations and for oversized cargo, dangerous goods and time critical requirements.

Active flight management.

Once a flight is confirmed, manage all aspects of your charter in one secure portal including confirmation, communication, contracting, document upload and invoicing.

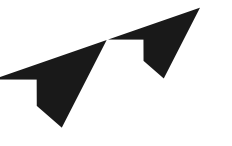

Fast air cargo quotes.

CharterSync's digital platform enables us to provide the fastest air cargo charter solutions in the industry, allowing you to choose from a variety of options within minutes.

Live flight tracking.

Our system connects directly with live flight planning data to allow you to view your flight in real time at every stage.

“

We had the customer on the phone when we submitted the request and let them decide straight away. They were amazed by the quick response!

Trusted by freight forwarders from across the globe

AOG Services

Speedy and reliable charters moving spare parts for grounded aircraft ensuring aircraft are back in the skies as soon as possible.

Remote destinations

We have experience assisting with charter flights to hard-to-reach locations. No matter where your cargo needs to be, we'll help get it there.

Dangerous goods

Our expert team is fully equipped with the latest guidelines and knowledge to assist you with regulations, requirements and restrictions when transporting dangerous goods.

Time-critical

Our team is available 24/7 to provide solutions for your urgent air cargo charter demands and our platform enables industry-leading response times.

Heavy and oversized cargo

Our advanced technology is able to assess complex cargo loads considering size, weight and routing parameters and enables us to provide the most suitable solutions for outsized cargo.

Humanitarian relief cargo

Our team is highly experienced in developing and managing solutions for humanitarian air cargo shipments, where speed and knowledge are key components for finding the right solution in order to get much required aid to where it is needed fast.
